Believing that an investigation was needed to identify the exact products and services currently available to the consumers and to recognize with appreciation the providers of those products and services, I applied for and was awarded a Missouri Economic Excellence Grant.

Information from surveys show area strengths as well as weaknesses. This project points out investment opportunities which will create jobs and generate sales tax and show the direction of possible expansion for existing business and industry.

The compiled information along with the availability of river, rail, air and interstate for quick and easy transport of products should be extremely valuable to the city's Industrial Development Board and the Chamber of Commerce in their pursuit of economic and industrial development.

I believe that we are on the eve of exciting growth with the extension of Nash Road to the Port and another exit out of town by 1994 and the proposed re-design of the interchange in Scott City and at Nash Road.

With Sincere Appreciation*
